Objective

A passionate and detail-oriented individual with a strong foundation in HTML, CSS, and JavaScript, seeking a Junior Web Developer position. Currently working on building my portfolio and eager to contribute to a development team while further enhancing my skills. I am committed to creating responsive and user-friendly websites and applications.

Skills

Technical Skills

- **HTML5**: Proficient in creating the structure of web pages with semantic HTML5 tags.

- **CSS3**: Experienced in styling web pages with CSS3, including responsive design using media queries and flexbox.

- **JavaScript**: Basic knowledge of JavaScript for adding interactivity and dynamic content to web pages.

- **Responsive Web Design**: Skilled in designing mobile-friendly websites using HTML, CSS, and media queries.

- **Version Control/Git**: Basic knowledge of Git for version control and GitHub for hosting code repositories.

- **Cross-browser Compatibility**: Understanding of testing and optimising websites to ensure compatibility across different browsers.

- **Problem Solving**: Ability to identify issues in code and work toward efficient solutions.

Human-Centric Skills

- **Teamwork:** Thrives in collaborative environments, contributing ideas and supporting team goals.

- **Conflict Resolution:** Calm under pressure and skilled at resolving disputes efficiently.

- **Customer Service:** Strong interpersonal skills to connect with people and provide solutions.

- **Time Management:** Effectively prioritizes tasks to meet deadlines without compromising quality.

- **Attention to Detail:** Ensures precision in every task, from reports to research.

- **Empathy:** Demonstrates understanding and patience when working with others.

Languages

- **Fluent/Native:** English, Sepedi, Zulu

- **Beginner:** Afrikaans

- **Conversational:** Xhosa (speaking and understanding only)

Education

St. Mark's College

- National Senior Certificate (Matric), 2022

Richfield Graduate Institute of Technology

- Bachelor of Science in Information Technology, 2025- present

Projects

The Harmonic Hearth (Web Development Project)

- Created a responsive website for a wedding or event catering business using HTML, CSS, and JavaScript.

- Ongoing project hosted on GitHub as part of personal portfolio development.
